

A Theology Of Water

Water is important in the Bible, you live in the desert and water becomes very important. In fact you would know where all the wells were in Hebrew Testament times so that you could plan your travels around them.

Water is important for another reason, water saves people in the Bible. Not just when you drink it, but when you pass through it.

1. The other side of the water
 - a. Violence (Genesis 6:11)
 - b. Slavery (Exodus 14:10-18)
 - c. Wanderings (Joshua 3)
 - d. Inadequacy (2 Kings 2:13-15)

2. In the water
 - a. Fear – that's what separates the other side from the saved side.
 - b. Faith (Joshua 3:17).

3. The saved side of the water
 - a. Peace with God and man
 - b. Freedom
 - c. Purpose
 - d. God's Spirit

Today water is still important to the believer through baptism 2 Peter 3:18-22.
